

Employment Opportunity

Position Title:

Chief Compliance & Privacy Officer

Organization:

Prospect Medical Holdings

Location:

Los Angeles, CA

Job Description (including education/experience requirements, benefits, duties, etc.)

The Chief Compliance & Privacy Officer will be a member of Prospect's Corporate Leadership team with responsibility for the implementation of Prospect's Compliance program for the entire health system. The Chief Compliance & Privacy Officer position provides leadership to each of Prospect's markets for ethics, compliance and privacy matters and directly supervises additional Compliance Officers located in each of those markets. In a transformative phase, the Chief Compliance & Privacy Officer is needed to further develop the effectiveness of the Compliance program to serve the needs of a growing organization with a unique health care delivery model. It is critical that this leader establish him/herself as a visible, approachable individual who is a transparent, proactive and an effective communicator. The Chief Compliance & Privacy Officer will play a critical role in proactively developing and optimizing relationships and performance throughout the organization (across all operating segments) while building upon the culture that actively seeks input from compliance to further optimize the Company's day-to-day operations.

Requirements:

Education: A Bachelor's degree. A Master's degree and/or JD is preferred. Certification in healthcare compliance (CHC, CHC-F, CHRC and/or CCEP) is preferred.

Experience: At least 10 years of experience in healthcare compliance, preferably for a large, multi-faceted for-profit healthcare organization. The successful candidate will be recognized for demonstrated knowledge in compliance process improvement and the requirements of state and federal healthcare programs. Relevant experience may include past clinical, legal, auditing or other compliance experience within a for-profit company with multiple segments in multiple regions. Prior executive level management experience preferred. Skilled in use or working knowledge of information systems, databases, Excel and Microsoft Word.
